MOSS | 3 IS AN IDEAL PRODUCT FOR:

- Small spaces where seating density is important
- Large spaces that need to be sub divided to create zones
- Areas with architectural challenges such as columns or obstructions
- Space that must be reconfigured on a regular basis
- Sitting, perching or laying down
- Formal or casual space depending on fabric choices and layouts.

Lean or sit at eye-level.
L-Shapes are the perfect
perch-height.
